

Stats SA publishes approximately three hundred different releases each year. It is not economically viable to produce them in more than one of South Africa's eleven official languages. Since the releases are used internationally, not only locally, but also by international, economic and social-scientific institutions, Stats SA releases are published in English only.

co-operation between Stats SA and Africa (Stats SA), the citizens of the country, the private sector and government institutions is essential. A successful statistical system, without continued co-operation and goodwill, the timely release of relevant and reliable official statistics will not be possible.
