

Co-operation between the Central Statistical Service and the residents of the RSA, the private sector and the government institutions is essential for a successful statistical system in the RSA. Without this continued co-operation and goodwill, the timely release of relevant and reliable official statistics will not be possible.

The CSS publishes approximately five hundred different releases per year. In the light of expenditure restraints in government, it is no longer economically viable to produce them in more than one of the eleven official languages in South Africa. Since the releases are also extensively used by the international economic and social-scientific communities, from 1996 CSS releases will be published in English.
